## CIP X REVEAL14

Two weeks ago (13th-16th Sep), the 14th REVEAL conference hit Göttingen, Germany, and guess who was there? Yep, you got it – CIP! It was a pretty big deal, with over 100 attendees from 10+ projects and 20 different countries joining in. But here's the twist: instead of your usual lectures, we switched things up with a hybrid exhibition. Imagine objects and projects stealing the show, both in-person and virtually!

For us at CIP, it was a real treat. We got to test out our cool hybrid exhibition idea (which we're pretty proud of), displayed 5 exhibition items, and we got to share our project goals with a diverse crowd. It was an awesome experience, and we can't wait to see where it takes us next!
